

## WS2 Handout 34 (Slide 161): Interview or Focus Group Questions Used to Evaluate the Process of Crisis Response and Recovery Implementation

1. Which interventions were the most successful and why?
2. What were the positive aspects of staff crisis response debriefings and why?
3. What immediate response and longer-term recovery strategies would you change and why?
4. Do other professionals need to help with future crises?
5. What additional training is necessary to prepare for future crises?
6. What additional equipment is needed to support immediate response and longer-term recovery efforts?
7. What other planning actions will facilitate future immediate response and longer-term recovery efforts?
